

Marine Chemistry, 41(1-3), January 1993

Special Issue of the Workshop on measurement of dissolved organic carbon and nitrogen in natural waters.

...

Editorial, Page 3

R. Benner, B. Von Bodungen, J. Farrington, J. Hedges, C. Lee, F. Mantoura, Y. Suzuki and P. M. Williams – Measurement of dissolved organic carbon and nitrogen in natural waters: Workshop report – 5-10

P. J. leB. Williams, J. Bauer, R. Benner, J. Hegeman, V. Ittekkot, A. Miller, B. Norrman, Y. Suzuki, P. Wangersky and M. McCarthy – DOC subgroup report – 11-21

C. Hopkinson, L. Cifuentes, D. Burdige, S. Fitzwater, D. Hansell, S. Henrichs, P. Kähler, I. Koike, T. Walsh and B. Bergamaschi – DON subgroup report – 23-36

J. H. Sharp, E. T. Peltzer, M. J. Alperin, G. Cauwet, J. W. Farrington, B. Fry, D. M. Karl, J. H. Martin, A. Spitzzy, S. Tugrul and C. A. Carlson – Procedures subgroup report – 37-49

E. M. Perdue, F. Mantoura, J. Ertel, C. Lee, K. Mopper, G. Peyton, E. Tanoue, P. M. Williams, O. Zafirou and P. Coble – Mechanisms subgroup report – 51-60

Peter J. Wangersky – Dissolved organic carbon methods: a critical review – 61-74

James E. Bauer, Mario L. Occelli, Peter M. Williams and Paul C. McCaslin – Heterogeneous catalyst structure and function: review and implications for the analysis of dissolved organic carbon and nitrogen in natural waters – 75-89

Gary R. Peyton – The free-radical chemistry of persulfate-based total organic carbon analyzers – 91-103

Cindy Lee and Susan M. Henrichs – How the nature of dissolved organic matter might affect the analysis of dissolved organic carbon – 105-120

John I. Hedges, Brian A. Bergamaschi and Ronald Benner – Comparative analyses of DOC and DON in natural waters – 121-134

M. J. Alperin and C. S. Martens – Dissolved organic carbon in marine pore waters: a comparison of three oxidation methods – 135-143

H. J. W. de Baar, C. Brussaard, J. Hegeman, J. Schijf and M. H. C. Stoll – Sea-trials of three different methods for measuring non-volatile dissolved organic carbon in seawater during the JGOFS North Atlantic pilot study – 145-152

Ronald Benner and Michael Strom – A critical evaluation of the analytical blank associated with DOC measurements by high-temperature catalytic oxidation – 153-160

Ronald Benner and John I. Hedges – A test of the accuracy of freshwater DOC measurements by high-temperature catalytic oxidation and UV-promoted persulfate oxidation – 161-165

Wenhao Chen and Peter J. Wangersky – High-temperature combustion analysis of dissolved organic carbon produced in phytoplankton cultures – 167-171

Paula G. Coble, Christopher A. Schultz and Kenneth Mopper – Fluorescence contouring analysis of DOC intercalibration experiment samples: a comparison of techniques – 173-178

Steve E. Fitzwater and John H. Martin – Notes on the JGOFS North Atlantic Bloom Experiment–dissolved organic carbon intercomparison – 179-185

Brian Fry, Susan Saupe, Meredith Hullar and Bruce J. Peterson – Platinum-catalyzed combustion of DOC in sealed tubes for stable isotopic analysis – 187-193

Dennis A. Hansell – Results and observations from the measurement of DOC and DON in seawater using a high-temperature catalytic oxidation technique – 195-202

David M. Karl, Georgia Tien, John Dore and Christopher D. Winn – Total dissolved nitrogen and phosphorus concentrations at US-JGOFS station ALOHA: Redfield reconciliation – 203-208

Isao Koike and Luis Tupas – Total dissolved nitrogen in the Northern North Pacific assessed by a high-temperature combustion method – 209-214

A. E. J. Miller, R. F. C. Mantoura and M. R. Preston – Shipboard investigation of DOC in the NE Atlantic using platinum-based catalysts in a Shimadzu TOC-500 HTCO analyser – 215-221

A. E. J. Miller, R. F. C. Mantoura, Y. Suzuki and M. R. Preston – Preliminary study of DOC in the Tamar Estuary, UK, using UV-persulphate and HTCO techniques – 223-228

Kenneth Mopper and Christopher A. Schultz – Fluorescence as a possible tool for studying the nature and water column distribution of DOC components – 229-238

Bosse Norrman – Filtration of water samples for DOC studies – 239-242

Edward T. Peltzer and Peter G. Brewer – Some practical aspects of measuring DOC – sampling artifacts and analytical problems with marine samples – 243-252

Jonathan H. Sharp, Yoshimi Suzuki and Walter L. Munday – A comparison of dissolved organic carbon in North Atlantic Ocean nearshore waters by high temperature combustion and wet chemical oxidation – 253-259

Eiichiro Tanoue – Three vertical profiles of dissolved organic carbon in the North Pacific – 261-264

Suleyman Tugrul – Comparison of TOC concentrations by persulphate-UV and high-temperature catalytic oxidation techniques in the Marmara and Black Seas – 265-270

P. M. Williams, J. E. Bauer, K. J. Robertson, D. M. Wolgast and M. L. Ocelli – Report on DOC and DON measurements made at Scripps Institution of Oceanography, 1988–1991 – 271-281

DOC/DON Workshop subgroups, instrument demonstrators and assistant rapporteurs – 283-284

Acknowledgments, Page 285

Yoshimi Suzuki – On the measurement of DOC and DON in seawater – 287-288

John Hedges, Cindy Lee and Peter Wangersky – Comments from the editors on the suzuki statement – 289-290
